For persons who performed inspections, and recommended design, or carry out response actions (except for operations and maintenance) the local education agency used or will use persons who have been accredited by the State of North Carolina under Article 19, N.C. Gen.Stat. §130A-447 and 10A NCAC 41C 0602(a) of the Asbestos Hazard Management Program Rules. In addition, the LEA has considered whether any conflict of interest may arise from the interrelationship among accredited personnel, such as abatement activities being performed by an inspector or management planner, and whether that should influence the selection of accredited personnel to perform activities under this AHERA Program.
