

Erika Little-PTT President Nominee

1. What interests you most about serving River Mill Academy's Parents-Teachers-Together?

I am most interested in being a part of River Mill PTT because it is an important part of a strong school that helps build relationships and supports learning and our community. Over the past three years, as treasurer of PTT, we have been able to bring some new ideas and fun community events to River Mill Academy. I believe a strong connection between families, teachers, and the school community are key in making RMA the best that it can be. Being part of PTT is an opportunity to support teachers, enhance student experiences, and help create a positive and engaging environment for everyone.

2. How do you see the role of PTT supporting the mission and community of River Mill Academy?

PTT is a collaboration between stake holders at River Mill Academy- parents, staff, and community members. They say it takes a village- PTT is a great example of that village for our River Mill students and families. Our role is to bring together our school and create a cohesive unit that provides a variety of events- allowing our families and staff members to feel included, heard, and supported.

3. What skills or strengths would you bring to the PTT (e.g., organization, communication, fundraising, event planning)?

I enjoy collaborating with others and contributing ideas that can make school events, programs, and communication more meaningful and effective. As a staff member and parent, I can bring a unique perspective to planning and executing events for our staff and families. It brings me a lot of joy to be able to give back to our staff and families through PTT.

4. How would you encourage greater parent and teacher involvement in school activities?

I believe offering staff and families variety of opportunities to participate and support our school through PTT sponsored activities will help increase our parent and teacher involvement. I would continue to provide timely and detailed communication to all PTT members so that they know what is happening and ways to be involved. I believe it would also be beneficial to consider what it means to be a member and how that can benefit our efforts to increase parent and teacher involvement.
